Miami University Graduation Survey
2012-2013 Graduate Degree Recipients

- The Graduation Survey asks degree candidates about their experiences while attending Miami and their post-graduation plans. Participants included 244 students who received a graduate degree in 2012-2013 (34.1% response rate). All participants completed the survey online within 90 days of graduation; 48.0% completed the survey during the 30 days prior to graduation.
- Detailed results for the survey, including demographic information for the participants, results for all survey questions for 2012-2013, and historical comparisons (when available) are in the attached tables.

Future Plans

- When asked about their plans for next fall, 7.4% of students plan to attend school (6.2% plan to attend graduate school, 0.8% plan to attend professional school, and 0.4% plan to pursue additional undergraduate study).
  - Of those planning to attend graduate or professional school, 88.2% plan to pursue a doctoral degree in a research/scholarship area (e.g., PhD, EdD) and 5.9% plan to pursue a graduate-level certificate.
  - Among students planning to attend a graduate or professional school, 64.7% had received at least one offer of admission by the time they completed the survey.
- The majority of students (90.5%) also plan to work after graduation (81.0% plan to work full-time in their field of study, 8.3% plan to work full-time outside their field of study, 4.1% plan to work part-time, 0.8 plan to participate in a community service organization, and 0.4% plan to serve in the Armed Forces).
  - Among students who had begun searching for employment, 68.8% had received at least one offer of employment or were already working by the time they completed the survey.
  - Among students who had already accepted an offer of employment or were working at the company where they would be employed after graduation, 85.0% had been previously employed with the company. This is up from 62.3% in 2011-2012, primarily driven by an increase in the number of students who had previously worked for the company as a full-time employee.
  - Among participants who had secured a full-time position, the median salary range reported was $40,000-$49,999 per year.
- 51.9% of the students plan to live in Ohio after graduation, 35.1% plan to live in a different U.S. state, and 2.9% plan to live abroad.

Experiences at Miami

- 96.5% of students agreed or strongly agreed that their classes were intellectually challenging, while only 85.4% agreed that Miami prepared them to work with others from different cultures.
- 93.1% of the students rated their entire educational experience at Miami as “Excellent” or “Good.”
- A number of students participated in educationally beneficial activities while at Miami University. For example:
  - 57.8% worked on an independent study project.
  - 32.4% participated in a study abroad program.
  - 30.5% presented at a regional or national conference.
  - 44.4% worked with a faculty member on a research project.
  - 31.4% authored or coauthored a publication
- Many students reported working while attending Miami: 35.6% held a GA, TA, or RA position in their department while 8.6% held a GA, TA, or RA position outside their home department. In addition, 20.7% worked part-time on campus, 11.7% worked part-time off-campus, and 32.0% worked full-time while attending classes.

</tbody>
</table>

1 Beginning in 2011-2012, only students who are within 90 days of graduating are included.

2 Beginning with 2010-2011 participants, totals for this category may sum to more than 100% due to students receiving multiple degrees. Only one degree was recorded for May 2010 graduates.

3 Items marked NA are not available because either, 1) the question was not asked in that year, or, 2) the response size was too small to allow for analyses.

4 The response option was changed beginning with the 2011-2012 survey. Previously the option read, "Accepted an offer of employment."

5 Salaries listed are based on participants who will be working full-time and reported an annual salary.

6 The response option was changed beginning with the 2011-2012 survey. Previously the option read, "Participated in an internship."

7 The response option was changed beginning with the 2011-2012 survey. Previously the option read, "Participated in a leadership program."

8 The response option was changed beginning with the 2011-2012 survey. Previously the option read, "Taught at least one class."
