Footnotes

¹ Due to the small size of the College of Creative Arts and the College of Engineering and Computing graduating classes, large percentage differences may represent a very small number of students (e.g., 1-2 students).

² The "knowledge rate" indicates the percentage of the graduating class for whom we have data, regardless of the source of the data.

³ Because participants were allowed to select more than one option, responses may total more than 100%.

⁴ All items in the "Career Placement" section exclude from analyses individuals who are enrolled in graduate or professional school.

⁵ Items marked NA are not available because the response size was too small to allow for analyses ($n < 10$).

Appendix: Employer Names

X = One or more graduates was employed by this company.

XX = Five or more graduates were employed by this company.
