"The land looks like a fairytale." — Amundsen (1872-1928), about Antarctica.
"Great God! this is an awful place." — Scott (1868-1912), referring to the South Pole.

Grade Level: 4-7

Overview: This is a WebQuest in which each student assumes a specific scientific role and researches various aspects of Antarctica using Internet resources. Each student then joins a group consisting of each type of scientist. The groups pool resources in order to prepare a comprehensive presentation or letter persuading their principal to let them go on a trip to Antarctica. This activity’s goal is to provide students with background information on Antarctica from different curricular perspectives.

Procedure:

1. Have students go to this web address: [http://www.kn.sbc.com/wired/fil/pages/webantarctima.html](http://www.kn.sbc.com/wired/fil/pages/webantarctima.html)
2. Read the introductions aloud and check for student understanding by asking for clarification of directions.
3. Divide the students into groups. Each group will contain each of the four roles. Depending on your student’s individual learning needs, you may choose to have students work in pairs or as individuals in each of the roles.
4. Provide each individual with a rubric for their individual role and also for the group project.
5. Circulate to assist individuals as needed.

Assessment:

Rubric assessment is included for each individual as well as a group presentation/writing rubric (see next page).

Extensions:

Students who finish early may choose from the following activities:

- Research other scientific research teams who have visited Antarctica and find out why they went, what they were researching and who funded their trip.
- Choose a famous explorer who visited Antarctica and explain the purpose of their voyage and any other interesting information. Explorers may include: Roald Amundsen, Ernest Shackelton, Richard Byrd or Sir Edmund Hilary. Then write an obituary for the deceased explorers.
- Create a travel brochure of Antarctica enticing tourists to visit.
